The Ten Lenses of Philosophical Inquiry
Philosophical Inquiry Research Project

A huge part of Philosophical Inquiry is learning how to see the world with new eyes. To accomplish this goal, you will be introduced to the “ten lenses of philosophical inquiry.” The ten lenses of philosophical inquiry are tools to help us critically engage with, and analyze ourselves, and the world around us. Like a pair of glasses, the ten lenses help to change our perception and give us the power to re-examine our reality. In this philosophical inquiry research project you will get introduced to each of the ten lenses so that you become comfortable using the lenses both inside and out of our class. You will also learn more about a philosopher, their philosophy and the lens of philosophical inquiry that they are most clearly connected to.

Focus Question
What are the ten lenses of philosophical inquiry, and what are some examples of how they are connected to the philosophies of different philosopher’s throughout history?

Philosophical Inquiry Research Process
1) QUESTION - Develop the philosophical questions that you will use to drive your inquiry.
2) PLAN – Determine the types of sources that you will need to answer your questions.
3) GATHER EVIDENCE – Gather the information (textual, visual, quantitative, etc.) you need to explore and answer your questions.
4) ANALYZE – Analyze the answers to your questions, making sure to keep in mind the larger focus question guiding this inquiry.
5) COMMUNICATE CONCLUSIONS – Use evidence and reasons to write an organized (logically sequenced) explanation to the inquiry’s topic/focus question. Share your findings in our community of inquiry, and record the findings of others.
6) ACTION – Apply what you learned in your inquiry to take action in your life.

1) Question

a) SELECT – Start by randomly selecting one of the ten lenses to focus on in your inquiry. Read through the definition of the lens, and the essential questions associated with that lens. Next, choose a philosopher associated with that lens to inquire about in your research project.

b) QUESTION – Generate five philosophical questions about your philosopher and their philosophy. Make sure that each of your five questions meet the following criteria:
   • Uses the Good Thinker’s Tool Kit
   • Is something that you genuinely wonder about
   • Relates to/will help you answer the focus question

2) Plan

a) DETERMINE SOURCES - Before you answer your questions, determine the types of sources that you will need to best answer your questions. Make sure that at least one of these sources is a primary source and one is a secondary source (see the distinction below). Also keep in mind that you will need to include a bibliography for the sources that you use.

| **Types:**
  • ORIGINAL DOCUMENTS (excerpts or translations acceptable):
    - Diaries, speeches, manuscripts, letters, interviews, news film footage, autobiographies, official records
  • CREATIVE WORKS: Poetry, drama, novels, music, art
  • RELICS OR ARTIFACTS: Pottery, furniture, clothing, buildings |
| **Examples:**
  - Diary of Queen Lili‘uokalani - Experiences of the illegal overthrow of the Hawaiian monarch
  - The U.S. Constitution - American History
  - A journal article reporting NEW research or findings
  - Pictures of Japanese Picture Brides – Japanese-American history |

| **Definition:** “A secondary source interprets and analyzes primary sources. These sources are one or more steps removed from the event. Secondary sources may have pictures, quotes or graphics of primary sources in them” |
| **Types:**
  • PUBLICATIONS: Textbooks, magazine articles, histories, criticisms, commentaries, encyclopedias |
| **Examples:**
  - A journal/magazine article which interprets or reviews previous findings
  - A history textbook
  - A book about the effects of plantations in Hawai‘i |

3) Gather Evidence

a) READ - Read through your sources, and explore your questions.

b) WRITE – Write answers to your questions, and record your answers using the note-taking format outlined below.

<table>
<thead>
<tr>

| 1. What are some examples of texts written by the philosopher Hypatia? | Historians are unsure if Hypatia wrote any texts on her own. It appears as if she collaborated with her father to write many books. However, because she was a woman, she might have written the book on her own, but she was not given credit for it. The books were:  
  • A Commentary on the 13-Volume Arithmetica  
  • A Commentary on the Conics of Apollonius  
  • (edited) Ptolemy’s Almagest  
  • (edited) her father’s Commentary on Euclid’s Elements  
  • Astronomical Canon  

4) Analyze

a) ANALYZE - Use the note-taking format to explain how each of your answers relates to the focus question.

  • (edited) her father’s Commentary on Euclid’s Elements  
  • Astronomical Canon  
In Book III of Theon’s version of Ptolemy’s Almagest Hypatia presented a reasonable argument that the Earth is the center of the Universe. She also wrote about developing a portable astronomical calculator to help her think through mathematical problems.

Retrieved from http://www.smithsonianmag.com/specialsections/womens-history/Hypatia-Ancient-Alexandrias-Great-Female-Scholar.html | The lens of philosophical inquiry that I am focusing on in this inquiry is logic. Logic is the branch of philosophy that examines the methods of reasoning and argumentation. It is clear that Hypatia wrote mathematical text, and math is a logical method of reasoning and argumentation. She also wrote about developing a calculator, which shows how she used mathematical methods to solve problems. Hypatia’s philosophies on mathematical reasoning that she wrote about in her texts explains how Hypatia is connected to the logical lens of philosophical inquiry. | |
5) Communicate Conclusions

a) WRITE - Use the evidence and reasons that you gathered to write an organized (logically sequenced) explanation to the inquiry’s topic/focus question. Make sure to address each of the following prompts in your explanation:
• Who is your philosopher?
• What did your philosopher philosophize about?
• What is an excerpt from a primary source written by your author?
• Provide the logic explaining the reasons why the philosopher’s primary source you selected is a good example of the philosophical inquiry lens you were assigned.

b) CREATE – Design and produce a visual representation of your work on a poster. Use the format below. Use illustrations (printed or original drawings, charts, diagrams, etc.) to bring your poster to life. Reference your sources on the back of your poster.

<table>
<thead>
<tr>
<th>LENS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Essential Question:</strong> ____________________________________________________________?</td>
</tr>
</tbody>
</table>

Example Philosopher: Write an example sentence describing a) who your philosopher is, and b) what they philosophized about.

Primary Source: Insert a primary source, or part of a primary source to illustrate the philosopher’s philosophy, and the lens of philosophical inquiry that they are most connected to (e.g. a written quote, an image, a song lyric, etc.).

Description and Logic: Provide the logic explaining the reasons why the philosopher’s primary source you selected is a good example of the philosophical inquiry lens you were assigned.

c) PRESENT & RECORD – Start by writing down each of the ten lenses of philosophical inquiry in the back of your journal. Write them in alphabetical order and skip at least fifteen lines between each term. Next, we will take turns presenting our terms and posters. Everyone in the class will be responsible for writing the definition of each lens, the essential questions, and the philosopher examples (names only) in their glossaries.

*Special Note:* We will be using our glossaries, and the ten lenses of philosophical inquiry throughout the term. This implies that the work that we produce on this assignment is important; it will serve as a strong foundation for all of our future inquires and philosophical dialogues.
